

Golden Paw Match

When a resident or client can no longer keep their dog

A move, a health change, or a death should not leave a loved dog without a plan. Golden Paw Match helps the family place a healthy, senior-friendly dog with another older adult. We are a matching tool — not a shelter — and we do not take custody of the pet.

What to do

1. Tell the family there is a free listing: **goldenpawmatch.com/rehome**
2. Or send us a private note yourself (nothing is published): **goldenpawmatch.com/for-care-teams**
3. We reply from support@goldenpawmatch.com. The family chooses the new home.

Please do not include medical records or extra private data. A first name for the dog and a general situation is enough.
